

LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can give his customer free gifts of dry goods or shoes. A newspaper is a business, and its business is to be paid for, no matter in what part of the paper they appear.

The Confidence That

upon The Ledger for free notices have become so burdensome that we are forced to publish the following terms:

For notices of marriages.

Marriages, divorces, or other public entertainments where a fee is charged, and for notices of marriages, will be charged at the rate of \$1.00 per line for the first insertion, and 50 cents for each subsequent insertion. A notice of marriage will be published for one week unless otherwise specified. The fee for the first insertion will be for the entire week. This, however, does not include

Notice of Lodge meetings or Church services, which will not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for notices of marriages is 10 cents a line for the first insertion, and 50 cents for each subsequent insertion. A notice of marriage will be published for one week unless otherwise specified. The fee for the first insertion will be for the entire week. This, however, does not include

An attempt was made a few nights ago to rob the store of W. D. Ogden of Milford. A few shots from Mr. Ogden's revolver scared the thieves away.

The Bracken Circuit Court is now engaged in the trial of railroad cases.

Messrs. A. J. Cochran and W. H. Wadsworth of this city are in attendance.

F. Weckesser, who has been operating three stores at Richmond, has assigned. The principal creditors are Louisville and Cincinnati merchants. Liabilities not stated.

In Cincinnati Rev. Johnston Meyers of the Ninth Street Baptist Church has within a few weeks raised \$60,000 towards building a new tabernacle for his congregation.

W. M. Stevens of Greenup has brought suit against the C. and O. for killing a pet chicken. The next thing we may expect is that some railroad has been sued for killing time.

The shortage of Joe McDowell, Cashier of the Bank County Deposit Bank, has been definitely ascertained to be \$16,000. His bondsmen are Mt. Olivet people, who he formerly lived.

The working force of the Shoe Factory has been increased from thirty-three to forty, and the establishment is now running until 9 o'clock at night. A recent order for 8,000 pairs of shoes renders this necessary.

EASTER NUMBER!

AN OPPORTUNITY FOR LEGITIMATE ADVERTISING.

THE LEDGER will, on Saturday, April 13th, issue a special "Easter Number."

It will consist of 8 pages, with a page devoted to Easter, embracing a story by Colonel Will L. Vischer, formerly of the Kentucky press and well known through out Mason and adjoining counties.

This edition will be a trade catcher, and advertisers may depend upon getting what they pay for.

We will see if some of our merchants are as willing to patronize a legitimate home enterprise as they are to jump at every "fak" that comes along.

Among the graduating class of Pulte Medical College, Cincinnati, who will receive diplomas at the Scottish Rite Cathedral on the 30th, the name heading the list is that of William McGranaghan Blaine, son of Mr. and Mrs. John E. Blaine, and grandson of the late Dr. W. H. McGranaghan of this city.

Mr. Blaine is in his 23d year and is an exceptionally bright young man.

After his graduation he will go to Youngstown, O., to engage in practice with his uncle, Dr. Wm. McGranaghan, and this fall he will go to New York to take a post-graduate course.

Many friends in this city extend congratulations and best wishes to the young Doctor.

Beautiful Consistency.

Cincinnati, Cincinnati.

Three men in Georgetown have been fined \$2 and costs for violating the Sunday law. One of them sold 3 cents worth of candy, another sold two lemons and the third sold a can of oysters.

There is a precedent for the fines. The late "Squire" Duvencliff of this city once tried a man for violating the Sunday law. The proof showed that he had sold beer all day and, in addition, had sold a few cents worth of candy. The good old "Squire" fined him \$9 and costs for the sale of the candy, gravely announcing that as candy was not a necessity the law had been violated. But he also held that beer was a necessity, not a luxury, and that the defendant in selling the lager had been engaged in the performance of necessary labor.

SMALLPOX WARNING!

CINCINNATI WILL BE A VERY GOOD PLACE TO STAY AWAY FROM JUST AT PRESENT.

Smallpox! At Ashland! At Lexington! And at Cincinnati!

Let's see that it doesn't invade Mayville.

Yesterday the following telegram was received by Dr. C. C. Owens from the Health Department of Cincinnati:

CINCINNATI, March 21st. Dr. C. C. Owens, Mayville, Ky.: Twenty cases in Peshawar, sixteen colored and four white. Watch colored people. Answer quick. Hioos.

The Doctor replied that there were no cases here.

And then he had a conference with Mayor Cox and Chief Ort, who assured him that they were ready and willing to co-operate in any measure looking to the safety of our people.

The law provides that in each county there shall be named by the State Board of Health three physicians, whose duty in cases of epidemic is to declare quarantine, and upon such declaration the State Board will make an investigation.

If the facts warrant, the quarantine will be maintained; but if not, the State Board will order it raised.

This practically takes all power out of the hands of the city authorities.

Still, the Mayor and Chief of Police will do all they can to prevent the introduction of the disease into this city.

## THE SILVER PROBLEM.

Commercial Gazette.  
Farmer Johnson has two thousand  
bushels of wheat.

Mr. Jones has a thousand dollars  
worth of silver bullion.

Mr. Anderson's wheat is worth in the  
market \$2,000.

So is Mr. Jones's silver bullion.

Mr. Jones goes to Philadelphia, takes  
his silver to the Mint and has it coined  
into two thousand silver dimes, just as pretty silver  
lira.

When Farmer Anderson brings  
out his thousand dollar worth  
of wheat, Mr. Jones says it, putting him \$1,  
000 and he has \$1,000 left with which  
to buy the wheat of the next farmer that  
comes along.

This is free coinage. Some people  
are sure that all the farmers in the country  
are shouting for it.

We should see a good many strange  
things in this country if the silver peo-  
ple should have their way.

NEAR the close of the recent term of  
Congress Senator JOHN SHERMAN of  
Ohio said on the silver question:

"It is manifest that a roughest whether  
this country should be on a standard  
of silver or on a standard of gold  
money could not be longer avoided.  
That is the question which looms in the  
distance. I had hoped that, for the  
present session at least, it would not  
have to be taken up. Every man  
in the country who is familiar with the  
financial conditions feels that it is neces-  
sary to extend to the Government some  
relief under present circumstances; and  
yet Senators are told that they should  
give no relief whatever, except with the  
adoption of a measure for the free coin-  
age of silver. I believe that the adop-  
tion of the system of free coinage of  
silver would degrade the Nation among  
the financial people of the world, among  
the business men of the world, yes,  
among the laboring men of the world, more  
than any measure that could be  
devised. If therefore the choice is be-  
tween a gold standard and a silver  
standard, and if one or the other must  
be adopted, I am for that standard  
which is the highest and best, and  
which is the standard of all the civil-  
ized and Christian Nations of Europe,  
while the other standard has been re-  
jected over and over again. I have always  
believed, however, and I still believe,  
that both silver and gold ought to be  
maintained as the circulation of this  
country—gold as the highest measure of  
value in all our commercial relations  
abroad, and as a basis of our com-  
mercial and business relations at home; and  
silver to be used to the largest extent  
possible, so long as it does not demoralize  
gold."

Philadelphia society is torn up by the  
announcement of the engagement of  
Miss Theresa Butler, an heiress worth  
three quarters of a million in her own  
right, and with a papa twice a millionaire,  
to a humble typesetter of Boston. That  
follows gets a "fat take" anyhow.

**Deafness Cannot be Cured**  
by local applications, as they cannot reach  
the diseased portion of the ear. There is only  
one way to cure Deafness, and that is by  
systematic treatment. Deafness is caused by  
inflammation of the mucous membrane of the  
Eustachian Tube. When this tube gets inflamed  
you have a running sound, and when it is  
infectious, and when it is entirely closed, the  
Deafness is the result, and unless the in-  
flammation can be taken out and this tube  
restored to its normal condition, hearing will  
be destroyed forever. Nine cases out of ten  
are caused by cold, which is nothing but  
an inflammation of the mucous sur-  
face.

## MURUAGA.

The Spanish Minister, Tenders  
His Resignation.His Government Promptly Refuses to  
Accept It.

In this Action Secretary Graham is For-  
mally in a Demand for the Minister's  
Recall. For Some Time Murgu-  
ya Has Been Hesitant.

WASHINGTON, March 22.—The news  
from Madrid that Minister Murgu-  
ya had resigned and that the Span-  
ish government had refused to accept the  
resignation, created a mild sensation  
Thursday night in the midst of a week  
of diplomatic surprises.

It has been known for some time  
that the Spanish minister was discon-  
tented with his position here, and that  
his feeling of dissatisfaction was well  
reciprocated by the officials of the gov-  
ernment with which he had to deal, but  
this condition of mutual dislike had  
continued so long it was hardly  
expected that anything would be  
done to bring it to a head except in  
the usual progress of diplomatic trans-  
fers.

Murguaya ventured a denial of the  
story Thursday night, but that was be-  
lieved to be a quibble on the ground that  
his resignation was not accepted. Later  
he acknowledged that he had re-  
signed.

He has been very close mouthed since  
his first ebullition of excitement on ac-  
count of the Alliance affair, and the  
manner in which his remarks on that  
occasion were received here did not  
tend to enliven him of the country to  
which he was assigned.

His resignation was undoubtedly  
caused by his resentment of the humili-  
ating greeting which his Castilian re-  
cognition received every side, joined  
with his conviction that his strictures  
upon the conduct of the state depart-  
ment were of a nature to make him  
persona non grata with the adminis-  
tration.

He believed that by offering his re-  
signation he would forestall a demand  
for his recall, and the administration  
is pleased by his action in a position  
where it can hardly insist upon his re-  
call, even if it were desired.

By his resignation and the refusal of  
his government to accept it, he has put  
himself in the position of an especially  
served individual, and for the United  
States now to insist upon his recall  
would be somewhat in the nature of  
an effort to the government which  
had just expressed its confidence in him.

One explanation is that the Spanish  
minister sent in his resignation because  
of comments in some of the Span-  
ish papers in Havana, criticizing his course  
with regard to the present insurrec-  
tion in Cuba. The minister preferring  
this explanation, speaking of the mat-  
ter Thursday night, said:

"The minister was very sensitive as  
to the criticism in view of the fact  
that he had been zealously working to  
further the interests of his government  
throughout all the Cuban troubles."

He felt that in view of the criticism  
his government was not altogether  
satisfied with his course, which, it is  
said, he had been misrepresented by  
some American newspapers. The min-  
ister himself complains severely on the  
fact that he has been misquoted by several  
journals of this country.

## JAPANESE TREATY SATISFIED.

WASHINGTON, March 22.—Final ratifi-  
cation of the new treaty between the  
United States and Japan were ex-  
changed Thursday, and nothing more  
remains to be done but to issue a  
presidential proclamation putting it  
into effect, then it will become a law.

## OWNS A TOWN.

WASHINGTON, March 22.—Secretary  
Smith Thursday decided the case of J.  
B. Ditter and others against Daniel P.  
Stiles, involving the town site of Huron,  
O. T. The decision is in favor of  
Stiles, and under it the three or four  
hundred occupants of the site will  
have to obtain their title from him.

## NEW RAILWAY MAIL CARRIER.

WASHINGTON, March 22.—Chief Clerk  
Ragen, of the fifth division of the rail-  
way mail service, who has held that  
position for the past five years, has  
been removed, and Edward Snyder, a  
democrat, has taken the division. He  
has been appointed in his place.

## ATTEMPT TO FIRE CHURCHES.

WASHINGTON, March 22.—Attempts  
were made Thursday to set on fire two  
of the largest Catholic churches in the  
city—St. Patrick's and St. Dominic's.  
In both cases the fire was discovered and  
extinguished before material dam-  
age had been done. A woman dressed  
in black is suspected. All the Catholic  
churches in the city are now guarded.

## Believes Newspaper.

Dover, Del., March 22.—Chancellor  
James L. Walcott (dem.), who was the  
choice of the minority democratic can-  
didate for senator, and has since been  
supported by a majority of the demo-  
cratic members of the legislature,  
Thursday sent a letter to Speaker of the  
Senate Watson requesting the with-  
drawal of his name. The Walcott fol-  
lowers, of whom Mr. Watson has been  
the leader, then united upon Edward  
Harkins, a lawyer, and nine votes were  
cast for him in both of the ballots  
taken.

## Killed by an Elevator.

Hartford, Conn., March 22.—Eddie  
Harkins, a 13-year-old newsboy, fell  
down the elevator shaft in the govern-  
ment building and received injuries  
which caused his death several hours  
afterward. Harkins was an orphan, his  
mother having been burned to death  
three years ago, and his father also

## RACE WAR.

Inhuman Treatment of Spaniards by Negro  
Troops.

New York, March 22.—The Herald's  
special from Havana says additional  
news continues to be received from  
Cuba of insurgent victories in the east.

The latest and most startling yet re-  
ceived is to the effect that Guillermo  
Moncada, the Negro leader of a band  
near Guanatanmo, is one of the few  
men who want to turn the revolution  
into a race war.

It is also reported that Guillermo  
Moncada has suggested a large number  
of Spanish troops near Guanatanmo  
recently and completely routed them.  
In this battle, it is said, 300 Spaniards  
were killed and wounded.

This was followed by cruel and in-  
human treatment of the Spaniards by  
Moncada's forces. This is probably  
the same battle reported by the Span-  
iards as a victory for their troops, led  
by Col. Sanabedias.

At his time it was reported that  
fifty of the insurgents were killed.

There was but one white man in  
Moncada's detachment. After the bat-  
tle he ordered him to leave the camp,  
saying the white had failed to free  
Cuba in the last war, and that now in-  
dependence would be secured by the  
Negroes.

It is reported that some attempt will  
soon be made by the leaders to form a  
provisional government.

Nothing has yet been heard of Jose  
Martí.

## DESTITUTION.

The People of Newfoundland on the Verge  
of Starvation.

Boston, March 22.—Alon G. Faye  
says that the destitution of the people  
of Newfoundland is appalling; that the  
entire population of the island at the  
time of his arrival in St. John's was on  
the verge of starvation.

The shipment of provisions and cloth-  
ing which the Boston committee au-  
thorized him to distribute was received as  
a godsend, and the people went  
wild with enthusiasm over Boston's  
generosity.

"Unfortunately," said Mr. Faye,  
"the destitution is so widespread that  
further contributions are greatly need-  
ed. Newfoundlanders are looking  
with anxious eyes to Boston for addi-  
tional relief."

## SOIL SEED.

### A Thrifty Congressman's Deal on the Sly.

Secretary of Agriculture Morton Plays Detective and Traps Him.

He Sold His Quota of Flower, Vegetable and Other Seeds Given Him Under the Law by the Government for \$75—An Effort to Abolish the System.

WASHINGTON, March 22.—Secretary Morton's next annual report, it is stated, will set out in detail, with names and accompanying particulars, the facts in a transaction which will make interesting reading. Some weeks ago Mr. Morton wrote to the purchasing agent of the seed division of the department, informing him that members of congress had been charged with disposing of their seeds in a way other than was contemplated by law, and instructed him to either verify or disprove these charges in the most substantial way.

At less than the value agent brought to the secretary the written order of a member of the house of representatives for his entire quota of seeds, which he proposed to sell to the department agent for the sum of \$75. The purchase was directed to be made, and instead of cash the agent gave him a check, which was properly indorsed by the vendor and the money was withdrawn from bank.

It happens that Secretary Morton now has the seeds issued to this member, turned over on his written order, and also the check through which the money was paid and bearing the signature of the member who sold the seed.

The department officials decline to mention the name of the congressman or to disclose the name of the member in question, in view of the fact that the whole transaction, names and all, will appear in the report as a striking example of the evil which the secretary is earnestly endeavoring to abolish.

The full quota of seeds furnished a member of congress last year consisted of an average of 400 packages of flower seeds, 15,000 of vegetable and 80 quarts of field seeds, grasses, etc. The total value of the seeds to the department is between \$25 and \$100. The department in this transaction got the whole lot back for \$75, the secretary is making an effort to abolish the free distribution of seeds entirely, for the reason it has grown into an evil that was never contemplated when the original law was enacted.

## AT SIOUX CITY

A Hurricane Machine Co. Loss at Least \$500,000 by Fire.

SIOUX CITY, Ia., March 22.—The greatest fire in the history of this city Thursday morning destroyed property to the value of about \$500,000. It started at 10 o'clock in a pile of rubbish on the platform of the Western Transfer and Implement Co.'s warehouse, and in less than an hour it had built a four-story high, and covering a full quarter of a block of ground, stored with over \$200,000 worth of implements and carriages, was a heap of ruins.

The fire spread to the plant of the Sioux City Lined Oil Co., and soon the big elevator, with 100,000 bushels of seed in it, was destroyed. Every piece of fire apparatus in the city was at work, but there was no such thing as controlling the fire, as the wind blew a gale all day.

The eastern part of the city's business section was threatened with destruction and the mayor sent telegrams to surrounding towns for additional fire apparatus. The fire was only contained in this building, and the damage to the Lined Oil Co., including the mill, but not till the loss to the company had reached \$100,000. This is fully covered by insurance.

## IN A MINE.

### A Large Number of Miners Mangled in Wyoming.

### An Explosion That Shook the Country for Miles Around.

Several Bodies Taken Out, Burned Beyond Recognition—The Disaster Came Without Warning and Before All the Men Had Left the Mine in the Evening.

SALT LAKE CITY, Utah, March 22.—A special to the Tribune from Red Canyon says: A terrible explosion at Rocky Mountain Mine No. 8, situated at Red Canyon, Wyo., is believed to have killed eighty men, who are imprisoned in the mine, in addition to ten who were in the power house above ground or near the shaft openings. The explosion and the major set of telegrams to surrounding towns for additional fire apparatus. The fire was only contained in this building, and the damage to the Lined Oil Co., including the mill, but not till the loss to the company had reached \$100,000. This is fully covered by insurance.

The horror occurred at 5:45 Wednesday evening at No. 8 Central Pacific mine, Red Canyon, five miles north of Evanston. The explosion in the mine shocked the whole country around, wrecked the power plant, a furnace and several other buildings, entailing heavy loss, but the death toll far exceeds these other losses. The explosion, Edwin Cox, the outside carpenter, Jan. Bruce, outside boss; James W. Clark, Mr. Sellers, Jr., and J. S. Terman, an Austrian miner, killed in the power house, while O. Maltby, foreman; Jerry Crawford, and Andrew Mason were injured and died soon afterward, the latter three being about the power house at the time of the explosion. A few hours later the dead bodies of James Clark and George Morgan were taken from the slope, only a short distance down, but as this is written there is around the mine a great throng of people, anxious to inspect the place, and known to be in the mine, and all hope of any of them being alive is gone.

No one after seeing the ghastly spectacle caused by the explosion, brought out of the slope could have hopes of any one in the mine being alive. These bodies were buried and blackened with garments and shreds, making it almost impossible to identify them. How many were in the mine at the time of the explosion is not known to tell, but the best information obtainable places the number at fully eighty.

Nearly 500 men are known to be killed leave large families. Immediately after the explosion the superintendent of the mine telephoned to Evanston for all the physicians, with an extra train, and a respondent went on the train and viewed the scene of the disaster before the explosion. The relief committee, carrying lanterns, got ready to descend in hopes of rescuing alive some of the victims. The blacksmith shop was burned into a desecration, with four bodies lying there, one disfigured with his head blown off, the others less damaged. Brave men have tried to descend to the bottom of the mine, but without success, and it was not until three hours after the explosion that a rescue party entered the main entrance to the mine, and soon afterwards returned with two bodies. They reported cases stopped further progress, and the slope, they said, went down to clear away the debris, after which the searching party again entered, and work in that line is now going on.

**"RIDING ON THE RAIL."**  
Judge Coffey Decides a Greenup Case Against the C. & O.

Among the recent cases decided by the Court of Appeals is the following, which possesses more than local interest:

**Railroad—Ejection of Passenger from Excursion Train.**—The case is an Ohio Railroad Co. vs. O. & O. No. 1217 (to be reported) filed March 19th 1895. Appeal from Greenup Circuit Court. Opinion of court by Judge Coffey, affirmed, Judge Payne not sitting.

Where one who had bought a ticket for a certain point on a railroad attempted some time after to get upon an excursion train which stopped at the station, and was forcibly ejected, the railroad company cannot escape liability upon the ground that it had placed its cars and train hands under the control of another for the purpose of the excursion, and that the person ejected had no right to ride upon that train. Public policy and the law alike forbid that a railroad company should be allowed to place its road, cars and train hands under the control of a stranger for such a purpose and thus escape liability for the wrongs done by such person.
